CLE Corporate Language Advantage

programs aid large corporations and organizations in China unleash the potential of their employees. Our Program Consultants work with each company to design a custom solution to teach overseas executives, employees, and employee family members the language skills necessary to create, manage, and succeed in a Chinese language environment. All CLE Corporate programs are results focused and ensure growth and skill development.

CLE has three locations in Shunyi, Liangmaqiao and Guomao, and currently offers many custom corporate programs to organizations like the United States Embassy and Caterpillar. Corporate group classes and private executive courses, either at our language center or your company campus, along with many other options are available.

Additional information about CLE and our corporate programs is available on our website at www.chinaledu.com.

Results-Oriented Programs:

All CLE Corporate programs are customizable for class content, class size, location, and program duration. Currently, CLE offers the following types of corporate programs to both employees and employee family members:

- Private Executive Courses**
- Small Group Courses - Employees**
- Small Group Courses - Family Members**
- Culture Electives & Training**
- Children Language & Elective Courses**
- Employee Benefit Language Programs**

Courses focus on General Chinese, Business Chinese and Chinese Culture & Electives. Companies can choose comprehensive language programs or programs that focus on a specific aspect of the language. Company invoice, group payment and discounted individual pay options are available to qualifying organizations.

Quality Teaching

All CLE programs are taught by experienced Chinese Language Professionals. Great teachers are essential to providing results-oriented and relevant programs, intimate and engaging learning environments, and a challenging and motivating curriculum. We achieve this through the following methods:

Qualified Teachers – All CLE Language Teachers are University graduates with experience teaching Chinese as a foreign language.

Internships - All Language Teachers partake in an internship program before receiving classroom assignments. Only the best teachers move to classroom assignments.

On-going Training - Language Teachers meet frequently for on-going training. This ensures all teachers are using the most modern and effective techniques and materials.

Working Hours– CLE Language Teachers are scheduled to teach a maximum of 6 hours per day ensuring they are fresh and prepared for each class session.

Feedback - Language Teachers receive bonus compensation based on overall student satisfaction.

“For anyone considering taking on the challenge of learning Chinese, I highly recommend CLE. They provide a very effective, practical and flexible approach to learning the language.”
